Google Voice

Free Second Phone Number Guide

FREE Phone Number for Gig Apps

Welcome to your complete Google Voice setup guide! Google Voice is a FREE service from Google that provides you with a second phone number. This is incredibly useful for gig work because it keeps your personal number private while allowing you to receive verification codes, customer calls, and app notifications. Best of all - it's completely free and works anywhere you have internet!

Requirements Before You Start

- A Google account (Gmail) - free to create if you don't have one
- Smartphone with iOS 14+ or Android 8+
- Stable internet connection (WiFi or mobile data)
- Your current phone number (needed once for initial verification)
- About 10 minutes to complete setup

Step 1: Download Google Voice App

- Open the App Store (iPhone) or Google Play Store (Android)

- Search for "Google Voice" in the search bar
- Look for the official Google Voice app with the blue/green phone icon
- Download and install the free Google Voice app
- You can also set up Google Voice at voice.google.com on a computer
- The app is completely FREE with no subscription fees

■ TIP: Google Voice works on multiple devices - phone, tablet, and computer!

Step 2: Sign In to Google Voice

- Open the Google Voice app
- Tap "Sign in" and enter your Google account credentials
- If you don't have a Google account, tap "Create account" to make one
- Accept the Google Voice Terms of Service
- Grant the app necessary permissions when prompted (contacts, microphone)
- Your Google account will be linked to your new Voice number

■ TIP: Use a Google account specifically for your gig work to keep things organized!

Step 3: Choose Your Free Phone Number

- Tap "Search" to find available phone numbers
- Enter a city name or area code to find local numbers
- Browse through the list of available numbers
- Choose a number that's easy to remember
- Tap "Select" on your preferred number
- This number is 100% FREE - no hidden fees!
- You can change your number later if needed (may require fee)

■ TIP: Pick a number with a repeating pattern or easy sequence for better recall!

Step 4: Verify with Your Existing Phone

- Google will ask you to verify with an existing phone number

- Enter your current mobile phone number
- Select whether to receive verification code via text or call
- Enter the 6-digit verification code you receive
- This step links your Google Voice number to your account
- Your personal number stays completely private
- This verification is only needed once during setup

■ TIP: You only need to verify once - after that your Voice number is independent!

Step 5: Configure Your Google Voice Number

- Your new phone number is now active!
- Go to Settings to record a custom voicemail greeting
- Enable notifications so you never miss important calls or texts
- Set up call forwarding to your personal number (optional)
- Enable "Do Not Disturb" mode for times you don't want work calls
- Test your number by calling it from another phone
- Make sure texts and calls come through properly

■ TIP: Record a professional voicemail greeting for when customers call!

Step 6: Use Google Voice for Gig Apps

- Use your Google Voice number when signing up for Spark, DoorDash, Instacart
- All verification codes will come to your Google Voice app
- Manage work-related calls separately from personal calls
- Your real phone number remains completely private
- Google Voice works anywhere with WiFi or data connection
- You can use Google Voice on your phone, tablet, and computer
- Free calls and texts within the US and Canada!

■ TIP: Set custom notification sounds for Google Voice to distinguish work calls!

Pro Tips for Google Voice

- ✓ Keep the Google Voice app installed and logged in at all times
- ✓ Enable notifications to never miss verification codes or customer messages
- ✓ Use the "Do Not Disturb" schedule to silence work calls during off hours
- ✓ Check voicemails regularly - they're automatically transcribed!
- ✓ Google Voice is perfect for keeping work and personal life separate
- ✓ You can use Google Voice internationally with WiFi
- ✓ Free voicemail transcription helps you read messages quickly
