Spark Driver

Complete Account Opening Guide

Walmart Delivery Service

Welcome to your comprehensive guide for becoming a Spark Driver! Spark Driver is Walmart's official delivery platform that allows you to earn money delivering groceries, household items, and more from Walmart stores directly to customers' homes. This guide will walk you through every step of the registration process to ensure your application is successful.

Requirements Before You Start

- Must be at least 18 years old
- Valid U.S. driver's license (not expired)
- Smartphone with iOS 14+ or Android 8+ operating system
- Reliable vehicle in good working condition (car, van, or truck)
- Valid auto insurance with your name on the policy
- Clean background check (no serious violations)
- Social Security Number for tax purposes
- Bank account for direct deposit payments
- Ability to lift packages up to 50 lbs

Step 1: Download the Spark Driver App

- Open the App Store (iPhone) or Google Play Store (Android) on your smartphone
- In the search bar, type "Spark Driver" - make sure it's the official app by DDI (Delivery Drivers, Inc.)
- Look for the app with the yellow Spark logo on a blue background
- Tap "Download" or "Install" and wait for the installation to complete
- Once installed, tap "Open" to launch the Spark Driver app
- IMPORTANT: Do NOT download the regular "Walmart" customer app - you need "Spark Driver" specifically

■ TIP: Make sure you have at least 200MB of free storage space on your phone before downloading.

Step 2: Create Your Driver Account

- Open the Spark Driver app and tap "Sign Up" or "Get Started"
- Enter your personal email address - use one you check regularly as Spark will send important updates
- Create a strong password with at least 8 characters, including uppercase, lowercase, numbers, and symbols
- Enter your mobile phone number for verification - you'll receive a code via SMS
- Check your phone for the verification code and enter it in the app
- CRITICAL: When asked for your delivery zone or service area, enter one of the ZIP CODES provided by GIG ZipFinder
- This is the most important step - using an open zip code increases your approval chances significantly

■ TIP: Use the zip code from our list that is closest to your actual location for best results.

Step 3: Enter Your Personal Information

- Enter your FULL LEGAL NAME exactly as it appears on your driver's license (including middle name)

- Enter your date of birth in MM/DD/YYYY format
- Provide your Social Security Number (SSN) - this is required for tax reporting (1099)
- Enter your complete current residential address including apartment/unit number if applicable
- This address should match what's on your driver's license for faster verification
- Double-check all information before proceeding - errors can delay your approval

■ TIP: Your SSN is securely encrypted and only used for background check and tax purposes.

Step 4: Upload Required Documents

- Take a clear, well-lit photo of the FRONT of your driver's license
- Take a clear photo of the BACK of your driver's license
- Photograph your vehicle registration card (must show current/valid dates)
- Photograph your auto insurance card - ensure coverage dates and your name are visible
- Take a selfie for identity verification - face the camera directly with good lighting
- Make sure all photos are in focus with no glare, shadows, or cut-off edges
- All four corners of each document must be visible in the photo

■ TIP: Natural daylight works best for document photos. Avoid using flash which can cause glare.

Step 5: Complete Vehicle Information

- Enter your vehicle make (manufacturer) - e.g., Toyota, Honda, Ford, Chevrolet
- Enter your vehicle model - e.g., Camry, Civic, F-150, Malibu
- Enter the vehicle year (must be 1997 or newer in most markets)
- Select your vehicle color from the dropdown menu
- Enter your license plate number exactly as it appears (including any dashes or spaces)
- Confirm your vehicle has 4 doors (2-door vehicles may not be accepted)
- Verify your vehicle can safely transport grocery orders and large items

■ TIP: Your vehicle information must match your registration documents exactly.

Step 6: Background Check & Activation

- Review all the information you've entered one final time for accuracy
- Read and accept the Independent Contractor Agreement carefully
- Consent to the background check conducted by Checkr
- The background check reviews your driving record (MVR) and criminal history
- Most background checks are completed within 3-7 business days
- You'll receive an email notification when your account is approved
- Once approved, complete the quick in-app tutorial to start receiving delivery offers!
- Download the Spark Driver Guidebook from the app for best practices

■ TIP: Check your spam/junk folder if you don't see emails from Spark within a week.

Pro Tips for Spark Driver Success

✓ Start during peak hours (8-11 AM and 4-8 PM) for more delivery opportunities

✓ Maintain a high acceptance rate to receive better-paying orders

✓ Keep your car clean and organized for efficient deliveries

✓ Communicate with customers through the app if there are any delays

✓ Take photos of delivered items at the door for proof of delivery

✓ Weekends and holidays typically have the highest demand

✓ Check the app frequently as new orders appear quickly
