Google Voice - Free Second Phone Number Guide

Get a FREE Phone Number for Your Gig Apps

Google Voice provides a free second phone number that you can use for your gig app accounts. This keeps your personal number private and helps you manage work and personal calls separately. Here's how to set it up.

Requirements Before You Start

- A Google account (Gmail)
- A smartphone (iPhone or Android)
- Your current phone number (for verification)
- Internet connection

Step 1: Download Google Voice App

- Open the App Store (iPhone) or Google Play Store (Android)
- Search for "Google Voice"
- Download the official Google Voice app (blue phone icon)

- Wait for installation to complete
- You can also set up via voice.google.com on a computer

Step 2: Sign In to Google Voice

- Open the Google Voice app
- Sign in with your Google account (Gmail)
- If you don't have a Google account, create one first
- Accept the terms of service
- Grant necessary permissions when prompted

Step 3: Choose Your New Phone Number

- Tap "Search" to find available phone numbers
- Enter a city name or area code to search
- Browse through the available numbers
- Choose a number that's easy to remember
- Tap "Select" on your preferred number
- Numbers are completely FREE

Step 4: Verify with Your Existing Number

- Google will ask you to verify with your existing phone number
- Enter your current mobile phone number
- Choose to receive a verification code via text or call
- Enter the 6-digit verification code
- This links your Google Voice number to your account
- Your personal number remains private

Step 5: Set Up Your Google Voice Number

- Your new number is now active!
- Set up voicemail by recording a greeting
- Enable notifications for calls and texts
- Configure call forwarding if desired
- Test your number by calling it from another phone

Step 6: Use Your New Number for Gig Apps

- When signing up for Spark, DoorDash, or Instacart, use your Google Voice number
- You'll receive verification codes through the Google Voice app
- Manage all work calls from the Google Voice app
- Your personal number stays private
- Works anywhere with internet connection (WiFi or data)

Pro Tips for Using Google Voice

✓ Keep the Google Voice app installed on your phone

✓ Enable notifications so you don't miss verification codes

✓ You can use Google Voice on multiple devices

✓ Set quiet hours to avoid late-night work calls

✓ Use the web version at voice.google.com for convenience
